ABOUT ACTION TESA ULTRA VIOLET (UV) COATED PANELS

Ultra Violet Coating is an Acrylic adhesive based decorative lacquer which is cured by Ultra Violet rays in a series of closed chambers. UV Coating is a very polished, lustrous coating applied to a panel surface which could be Melamine impregnated Prelam, Natural/Recon Veneered or even Metal Foiled. The process of UV drying makes the end product Emission Free. The UV lacquering is a fully automated, synchronized PLC controlled process.

ADVANTAGE

- TESA UV boards are ready to use & no further finishing is required on surface. Hence it completely eliminate the extensive labor work & thus productivity of Plant get enhance drastically.
- All TESA products are tested in-house and in certified laboratories to qualify all the tests of Gloss, Scratch, UV cure etc.
- Transparent UV lacquer renders up to 98% long-lasting glossy finish
- Extra hardened UV coated surface makes it highly resistant to scratch and abrasion.
- Ultra Violet Coating on exterior grade MDF makes it highly resistant to moisture and fungal attack.
- Fixing of UV panels paneling application can be done with normal hardware like used for prelaminated boards.
- UV panels are recommended to be used for vertical application in normal furniture applications.
- Action TESA UV Coated Panels are ideal for laser engraving and CNC routing.

ULTRA VIOLET (UV) COATED PANELS

Melamine U.V. Coated Panel: A series of 9 layers of UV coating being done on Prelaminated Boards. Decorative paper being used for the surface of boards & a special kind of Prelamination process being adopted to make boards before UV coatings.

These panels from TESA have the following advantages:

- Super smooth surface of MDF substrate
- Uniform pasting of veneer on MDF due to special pressing technology
- Solid wood like look
- As the UV coating line is fully automatic so the finish on these panels is uniform all over and gives a great finish
- 100% environment friendly
- The gloss level is more than 98% in high gloss version giving a mirror finish
- UV coated is 100% cure so no change in gloss levels with time
- Value for money product
- Ready to use product as the panel is ready to be used in the application without the efforts of doing any polish on that.

PRODUCT SPECIFICATION

ULTRA VIOLET (UV) COATED PANELS

Type of Core Panel	Available in Prelaminated MDF Exterior Grade - Type-I, Highly Water resistant
BIS License (Core Panel)	IS : 14587 (Prelaminated MDF)
Sizes Available	Prelaminated MDF : 8FT (2440 mm) x 4FT (1220MM) On specific customer demands we can further customize panel sizes in logical sizes variants.
Thickness Available	Prelaminated MDF : 18mm
Shades Available	Melamine UV boards comes in more then 55 color

APPLICATIONS

ULTRA VIOLET (UV) COATED PANELS

- Kitchens Shutter • Sliding Wardrobe
- Wall Paneling & Embellishments
- Ceiling • LCD Display Unit • Wall Cladding
- Bathroom/Washbasin Cabin Shutters
- Product Display Unit • Office Storage Unit
- Various Furniture & Fixtures
- High Gloss White Marker Board

APPLICATIONS

ULTRA VIOLET (UV)
COATED PANELS

It Can be used for Sliding Wardrobe, LCD Display Unit
& Wall Paneling

APPLICATIONS

ULTRA VIOLET (UV)
COATED PANELS

It Can be used for Kitchen Shutter, Ceiling
and Wall Cladding

APPLICATIONS

ULTRA VIOLET (UV)
COATED PANELS

CNC Routed Panel

Laser Engraving

OF TESA UV COATED PANELS

9 LAYERS OF HIGH GLOSS UV LACQUER	The Action TESA Ultra Violet Coated Panels are coated with 9 Layers of UV Lacquer rendering an impervious and permanent high gloss surface.
EG EXTERIOR GRADE CORE	Exterior Grade Core Panel used for high water resistance making it ideal for applications in moisture prone areas
 SCRATCH RESISTANT	1H Pass And 2H Light
103 GLOSS LEVEL	Transparent UV Lacquer renders 103 High Gloss level that does not lose its sheen with the passage of time. Increased sharpness & depth of decor.
 E FRIENDLY	Environment Friendly Panelling Solution with 0.05 mg/L of Formaldehyde Emission, Zero VOC & has no Benzene or lead content.
 RESISTANT TO ACIDS & ALKALIES	Resistant to most acids, alkalies & stains.
HARD WOOD	Hard Wood used for motherboards
 EASY WORKABILITY	Easy workability. Can be cut with any saw having a TCD/PCD Tip @ 4500 rpm. Can be easily fixed as would conventional panels.
