USAGE TIPS GUIDELINE FOR HDHMR/MDF BOARDS LIGHT WEIGHT DOOR PRODUCTION

- Minimum **5.5 mm thick HDHMR/MDF board** to be used.
- The recommended inner filler for hollow core door are **Honey Comb Paper** or **Wooden Strips** with **Spacing** or **Tubular Particleboard**. It should not kept complete hollow.
- The strips thickness should be uniform, same as thickness of rail and stile to avoid any noticeable waviness after final finishing.
- In case of wooden strips, the spacing between strips is very important to avoid any deformation of board in varying climatic condition and should be maintained as per below chart.

Thickness of HDHMR Board	Strip Gap to maintain
5.5mm	25 to 30 mm
8 mm	50 to 60 mm

In case 3 mm is used, then the gap strip gap of 12-15 mm to maintain

Towards One Step For COMPUTER EDUCATION

In alignment with Nation's drive of **"Digital India Movement"**, and as part of organizational CSR initiatives in vicinity of Sitarganj Plant, we had started a Computer Institute on the auspicious occasion of Teachers Day (05-Sep-2019). Vision is Empowerment of Society with basic Computer skills, by imparting Free Computer Education (Nominal One-time Registration Fee of Rs 100 only) to Rural Youth or even elders of nearby area.

Short-term courses (covering NIELIT curriculum of CCC, O Level, etc...) are being organized spanning from 3 months to 1 year duration, and response within first month is quite encouraging. 60+ registrations (40 : 60 Girls / Boys Ratio) in 1st month, with 5 batches running currently.

Another step-forward towards Society Empowerment and way to go.....
